## INTRODUCTION

Corys Building Materials is a holding company based in Dubai, UAE, which manages three leading regional construction and building materials businesses: Hepworth, Corys Build Centre and Corys Geosynthetics.

Corys Build Centre is a retail business that supplies pipes, fittings and complementary construction products to contractors and maintenance companies. Retail outlets can be found in Dubai, Abu Dhabi, Sharjah, Al Ain, Doha, Manama and Muscat.

Corys Geosynthetics manufactures geomembranes in Dubai and trades regionally in related products including geotextiles.

Corys Building Materials is a subsidiary of Green Coast Enterprises, a Dubai-based private industrial and investment group owned by the Abdul Ghaffar Hussain family.

## Hepworth

Hepworth is the Middle East's premier manufacturer and supplier of high quality plastic piping systems for the distribution and transmission of water, waste water.

Hepworth has been manufacturing and marketing pipes, fittings and related products in the Middle East for over 40 years. We manufacture PVC, HDPE, PPR and ABS pipes and fittings in the UAE and Qatar and trade through our subsidiary companies in Oman, Bahrain, Saudi Arabia and export operations.

We represent and manufacture pipes and fittings under licence for Wavin and Georg Fischer and distribute other complementary products including equipments and valves for AVK and other principals.
